Dr Jaime De Castro Torres, Dental Surgeon  
Dr Casey Prawairadiraja, Dental Surgeon  
Dr Monica Cueva Moya, Dental Surgeon  
Miss Sam Singleton, Practice Manager

## Dentures

We offer a range of different types of Dentures. These are an alternative to Implants and Bridges.

### Metal Dentures

It is really important that your dentures fit properly and that there are no gaps or uneven pressure points. Because our metal Denture are made from very fine precious metal they are the best we offer.

If they are combined with the flexible acrylic then the clasps can be made to look like your own gum. This is a great advantage over the metal clasps which can be unsightly.

Metal Dentures start at £750 and go up to £1050

Because our metal dentures are cast from precious metal the time from first impression to fit is at least 3 weeks

### Plastic Dentures

These come in two varieties: the normal rigid type and the flexible type.

The down side of these types of denture is that they are designed to fit tightly rather than fit accurately. This can be a major problem if there are remaining teeth in the mouth. However we use a really excellent local laboratory and the results we get are outstanding.

Plastic Dentures start at £450 and go up to £950

We can provide some new dentures the same day.

Otherwise it takes about 3 days to 3 weeks depending on how flexible the patient is with appointments)

To This

In these denture photos this patient was unhappy with the plastic looking denture and grey denture teeth, she wanted the teeth to look more vibrant and natural.

## Flexible Dentures

Many patients hate the metal hooks that come with most partial dentures.

They find metal hooks uncomfortable and unsightly.

The advantage of the flexible denture is that the "hooks" are made of gum coloured plastic.

These flexible dentures are becoming more popular as people become more conscious of their smile and appearance.

You can have combined metal and flexible dentures which combine the advantages of a well fitted denture with the appearance that is not spoilt with metal.

## Implants With Dentures

Many patients complain that their existing full dentures do not fit and are loose, and this is despite visiting lots of different dentists over a prolonged period of time.

We offer a realistic and affordable solution. With Charges starting at £2400 for 2 implants.

Have a look at our implant leaflet

Many patients think they are too old and this is simply not true. We have seen fantastic results in "not so young" patients.

Patients are amazed at the difference and are sometimes annoyed that they have delayed the decision.

**You can have a free consultation to see if you are suitable: simply call 01908 690326**

**We offer a Same Day Emergency Denture Repair Service**
